

Dear Friends,

It is my pleasure to make you aware of life saving screenings in our community.

**Where: Rochester - St Mary's Catholic Church**

**When: Friday, March 27, 2009**

**Pre-registration is required. Call:1-888-653-6412**

**Source Code: ISC3945**

Over 250,000 people have participated in Life Line Screening Radiology's ultrasound tests for stroke caused by carotid artery disease, abdominal aortic aneurysms and other vascular diseases. Cardiovascular disease is the #1 killer in the United States of both men and women—and a leading cause of permanent disability.

Consider the facts\*:

- 4 out of 5 stroke victims had no apparent warning signs
- 80% of strokes can be prevented

You may think that your physician would order these screenings if they were necessary. However, insurance companies typically will not pay for screenings unless a person has suffered symptoms. Unfortunately, for so many people, the first sign of a stroke is a stroke. That is why having a screening is so important to keep you and your loved ones healthy and independent.

I encourage you to talk to your physician about Life Line Screening Radiology. I am confident that he or she will agree with the hospitals that have partnered with Life Line Screening Radiology and suggest that you participate in this health event.

Please take a minute to read this information about these quick and painless tests. Life Line Screening Radiology is coming to our neighborhood for one day only and appointments are limited, so please call 1-888-653-6412.

Wishing you the best of health,

*Friends in Health*

P.S. Tell your friends, neighbors and loved ones about these life saving screenings and encourage them to call 1-888-653-6412 today. You may just save a life.
