

We Can Help You Avoid a Stroke

Trusted by Hospitals

Life Line Screening Radiology has partnered with hospitals and physicians to screen hundreds of thousands of participants. Why? Because the ultrasound screenings that we offer can help save your life.

1 Stroke/Carotid Artery Screening

Ultrasound evaluation of the carotid arteries that screens for buildup of fatty plaque – the leading cause of strokes.

2 Heart Rhythm Screening (Atrial Fibrillation)

Painless 6 lead EKG that can detect an irregular heart rhythm. Atrial fibrillation increases the risk of stroke 5 times.

3 Abdominal Aortic Aneurysm Screening

Ultrasound is used to screen for the presence of an aneurysm in the abdominal aorta that could lead to a ruptured aortic artery.

4 Peripheral Arterial Disease Screening

Evaluates for peripheral arterial disease (plaque buildup) in the lower extremities. It is 4-5 times more likely you will die from heart disease if you have peripheral arterial disease.

5 Osteoporosis Screening

An ultrasound measurement of the heel bone to determine abnormal bone mass density. Osteoporosis is painless and silent in its early stages.

**Stroke, Vascular Disease & Heart Rhythm Package;
all 4 tests for only \$139**
**Add an osteoporosis screening for \$10 more;
all 5 tests for \$149 (\$66 savings!)**

You will receive your results in 21 days.

Insurance Note: At the present time, Life Line Screening Radiology does not participate in the Medicare program and the cost of these screening services is not reimbursable by Medicare. Life Line Screening Radiology does not file insurance claims. In New Jersey and New Hampshire, ultrasound screening services are provided by Life Line Screening Radiology, LLC, L.M. Sheppard, M.D., 1-609-883-8688. In New York, ultrasound screening services are provided by Life Line Screening Radiology, LLC, L.M. Sheppard, M.D., 1-212-679-5943.
